

VESTA POMP

Heart of the process

Vesta Electromechanical Driven Double Diaphragm Pumps = Best of Both

Have all the advantages of an air driven double diaphragm pump, but with electricity. Run dry indefinitely without any damage, pump abrasive slurries and / or corrosive chemicals and / or acids. The electro-mechanically driven Vesta double diaphragm pump range offers a robust design, reliable service and low cost of ownership making it the ideal solution for dewatering and transfer applications of these liquids without the need of a compressor.
